

61-8106

14 October 1961

The Honorable Glenn T. Seaborg
Chairman
Atomic Energy Commission
Washington 25, D. C.

Dear Glenn:

I felt you might be interested in the attached report

[redacted] While it is somewhat dated today since it antedates your trip to Vienna, some of the information has a continuing value, if true. You may have already seen the report as a copy was sent to the Commission through intelligence channels.

I should be greatly interested to get your impressions of your Vienna meeting; your analysis of the underlying reasons for Yemelyanov's tantrum, and also whether you share the view expressed about the attitude of certain Soviet scientists toward the Berlin crisis. Possibly we could get together for a talk about this, unless you have a report on the Vienna meetings which we could see.

Sincerely yours,

AWD/ji
